FAIR Business Value Framework

Key questions:

- What is the business value of FAIR?
- How much to invest, for which benefits?
- What is the "ROI" of a FAIR implementation project?

Gaps

- Few publications on the business value of FAIR
- Scarce information on FAIR implementation in industry
- Who are the stakeholders? What drives them?

Scope

Develop the Pistoia Alliance FAIR Business Value Framework as modular FAIR valuation technique, inclusive of qualitative and quantifiable metrics to inform data investments in life sciences.

Community of Experts Funders

abbvie

DATAVID

ONTOFORCE

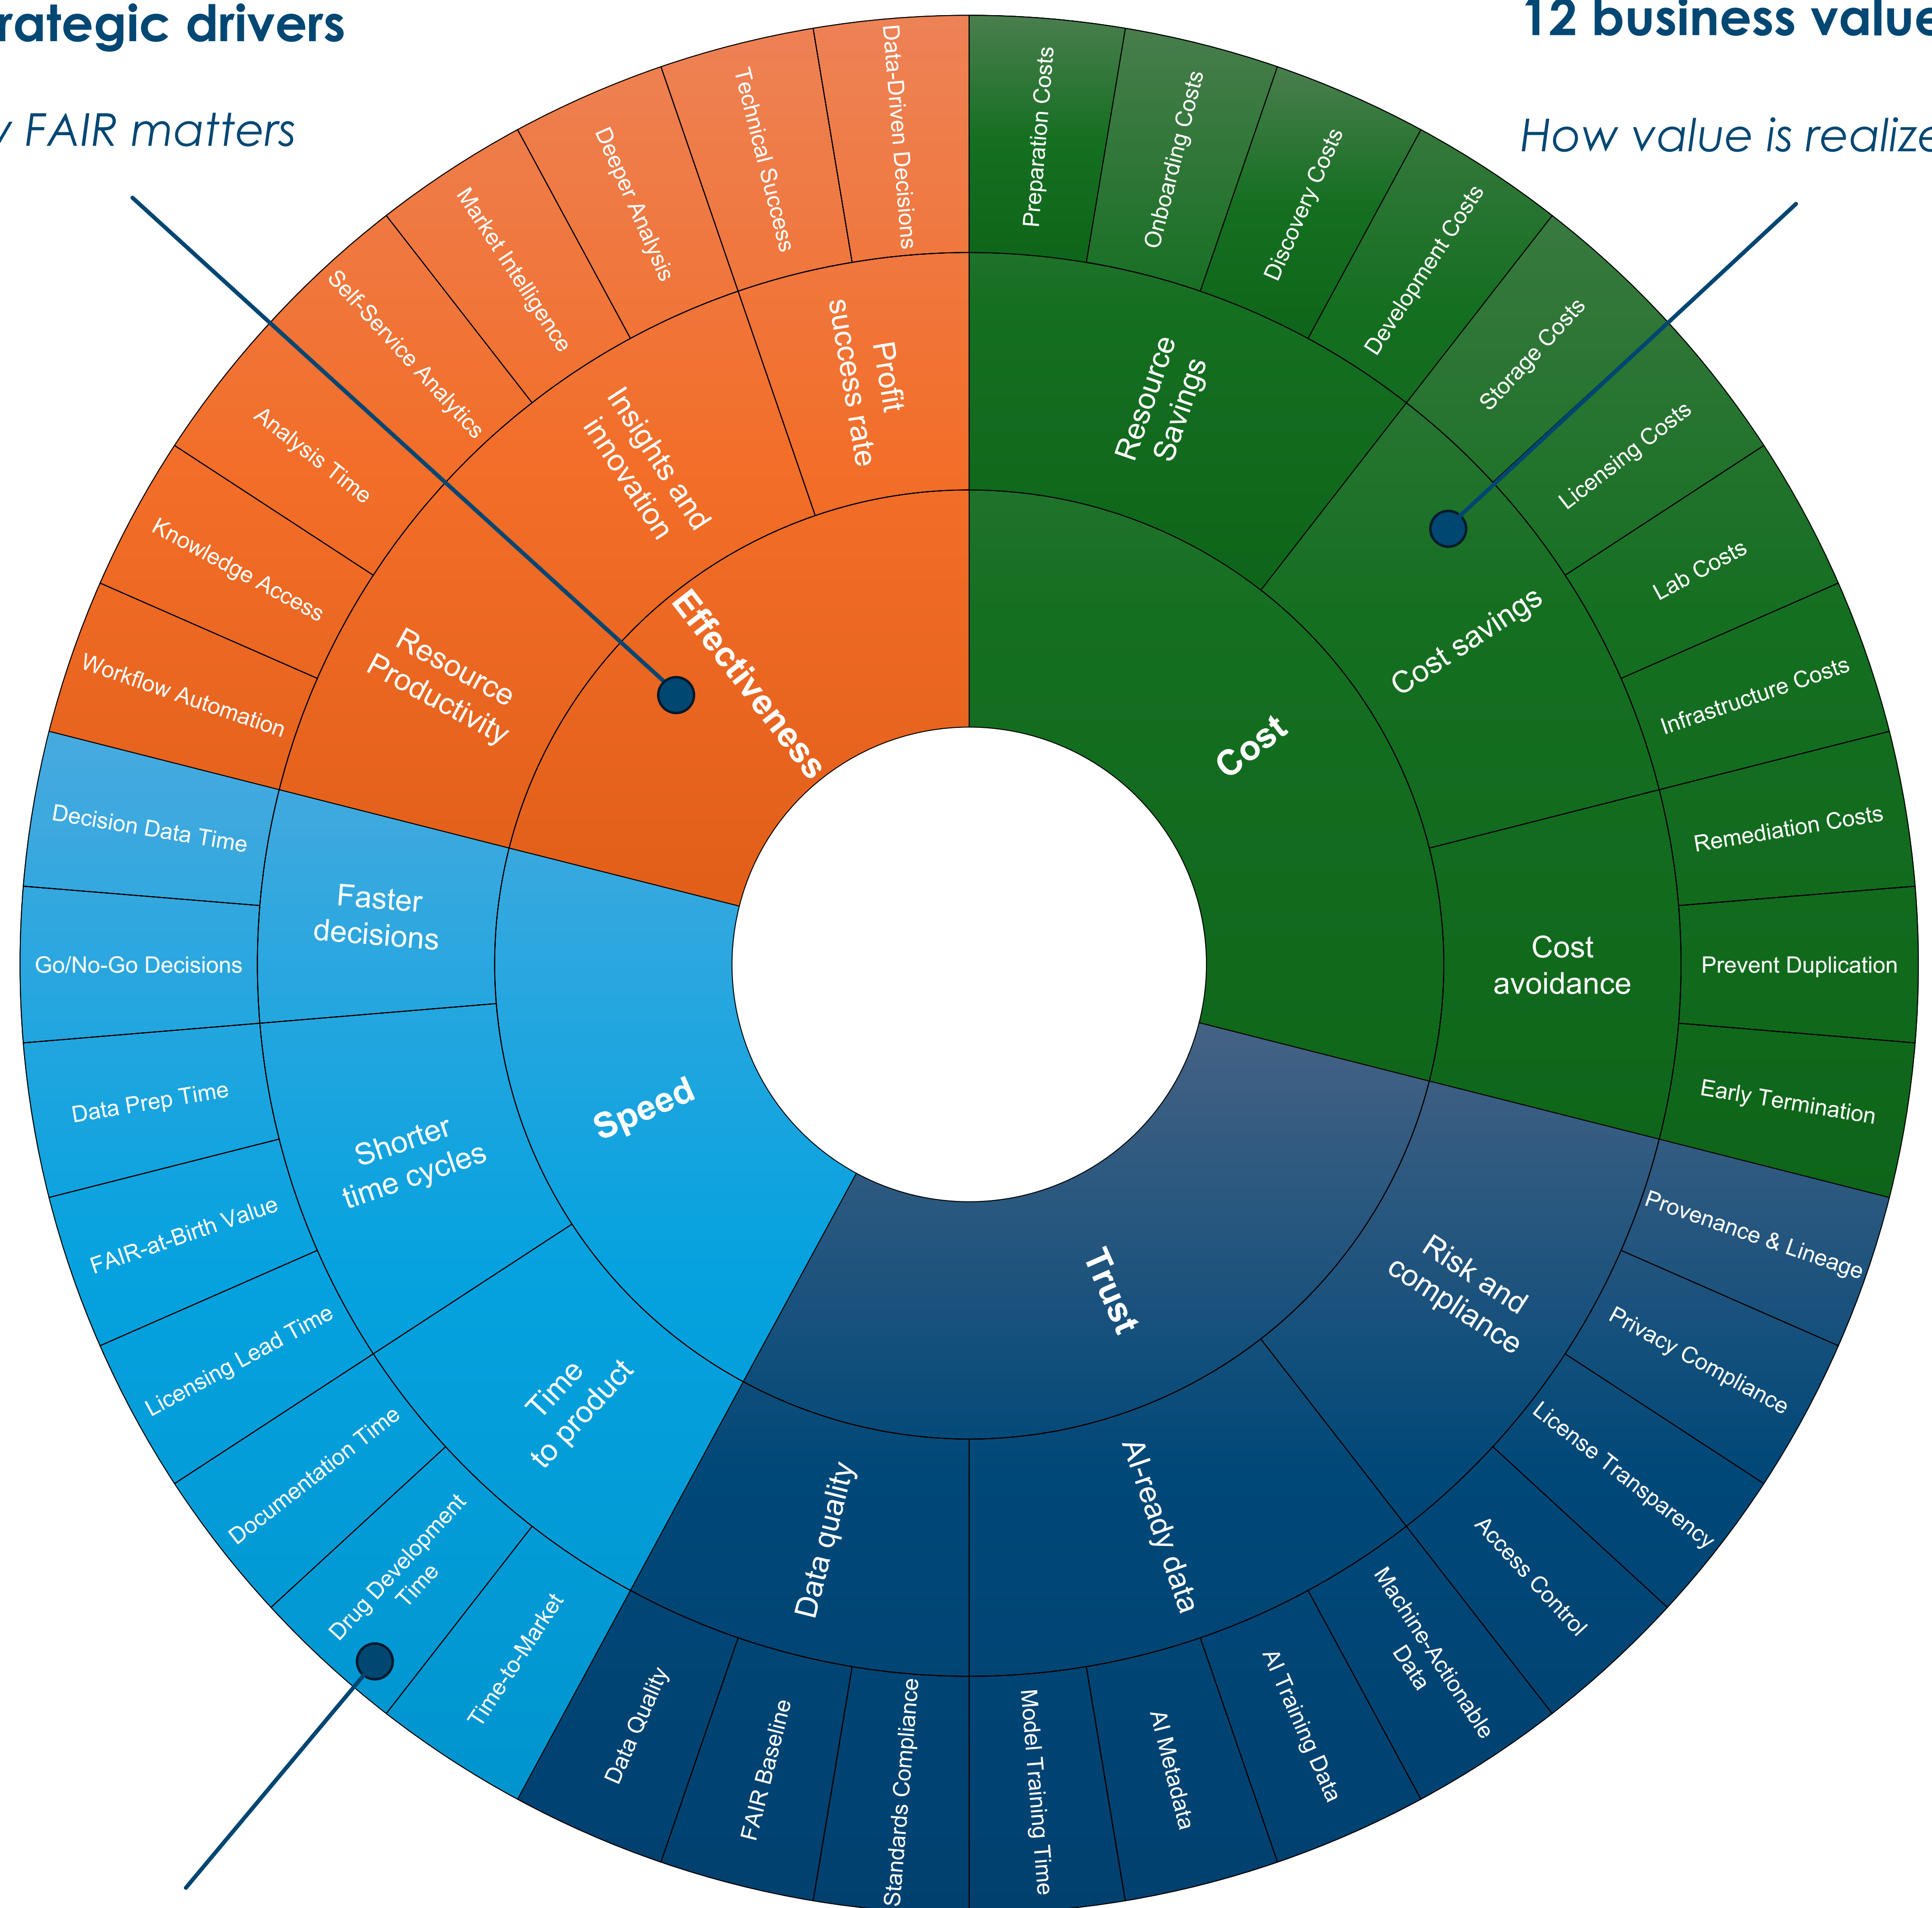

Thanks to our funders who are making this project possible, without their help this community would not exist or collaborate. Thanks for all the in-kind contributions for their time and expertise.

4 strategic drivers

Why FAIR matters

12 business value areas

How value is realized

38 business drivers

What is measurable and actionable

- Key parameters
- Calculation methods
- ROI calculation

The FAIR Business Value Framework:

- Links FAIR adoption to business value through a structured, modular blueprint
- Establishes a common language with standardized metrics
- Accelerates buy-in through practical use cases
- Builds trust and accountability through transparent metrics

Getting Involved

We are looking for more companies to act as funders and contributors, if you are interested in becoming involved with any of these projects, please contact the relevant project manager or email: ProjectInquiries@PistoiaAlliance.org.

Pistoia Alliance: Collaborating to lower barriers to R&D innovation

The Pistoia Alliance is a global, not-for-profit alliance of life science companies, vendors, publishers, and academic groups that work together to lower barriers to innovation in R&D.

Our members collaborate as equals on open projects that generate significant value for the worldwide life science community.
